EDUCATION

2017

—
Present

University of Melbourne

Melbourne, Victoria, Australia

BSc. Computing and Software Systems)

Courses taught have theoretical foundations with extensive practical usage including algorithm design, software design, web and mobile development, object oriented programming and computer systems. Many project works done individually and in teams, including one that uses Agile Methodologies.

EXPERIENCE

2020

3 months

Frontend Developer Intern

Antigrvty - Jakarta, Indonesia

Built a responsive frontend of an IOS and Android app using React Native and Javascript. Improved my skills in mobile development and learned to work with backend devs and UI designers.

2018

1 year

Communications & Events Assistant

University of Melbourne Student Union

Assisted students and visitors (general customer service duties), involved in preparing, executing and packing up large scale events.

VOLUNTEERING

2019

1 week

Teaching Volunteer

Ilmu Untuk Anak Bangsa (IUAB)

Volunteered to teach language and mathematics to elementary school students in a remote village in Papua, Indonesia. Effectively taught lessons with limited technology and learn to be altruistic.

2018

1 year

International Student Ambassador

University of Melbourne Student Union

Promote the International Student Union on campus and help events around campus for the wellbeing of International students.
